DANAM LAXMIKANTH

MERN Stack Developer | React.js | Node.js | MongoDB

+91 7780646402 | laxmikanthbunny19@gmail.com | Hyderabad, India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Data Science student (Expected Aug 2027) with hands-on MERN stack (MongoDB, Express.js, React, Node.js) project experience, including building and deploying full-stack projects such as the Flavorsify import/export business website and a live e-commerce site for a client. Strong fundamentals in JavaScript, REST API design, and database modeling, with additional background in Python and data analysis from prior internships at DRDO (DRDL) and Cognifyz IT Solutions.

TECHNICAL SKILLS

- MERN Stack: MongoDB, Express.js, React.js, Node.js
- Frontend: React.js (Hooks, Reusable Components), React Router, Vite, HTML5, CSS3, JavaScript (ES6+), Responsive Design
- Backend: Node.js, Express.js, REST APIs, CRUD operations, Mongoose, MongoDB Atlas, Cloudinary
- Tools & Deployment: Git, GitHub, VS Code, Postman, npm, Vercel, Render
- Also: Python, SQL, Power BI, Excel

PROJECTS

Flavorsify – Import & Export Business Website 2026

Tech: React.js, Vite, JavaScript, HTML5, CSS3, React Router, Node.js, Express.js, MongoDB Atlas, Cloudinary, Git/GitHub, Vercel, Render

- Developed a responsive website for a dehydrated-powder import/export company, from initial build to deployment.
- Built reusable React.js components and a multi-page UI (Home, About, Products, Import/Export, Contact, Product Details) with Vite and React Router, including dynamic routes for individual product pages.
- Designed a structured product catalog using REST APIs (Node.js, Express.js) with product data in MongoDB Atlas.
- Integrated Cloudinary for product image management and a customer enquiry flow with WhatsApp integration.
- Deployed the frontend (Vercel) and backend (Render) as separate services; managed code with Git/GitHub.

Embroidery E-Commerce Website (Client Project — Live Deployment) 2026

Tech: MongoDB, Express.js, React.js, Node.js, WhatsApp API

- Built and deployed a full-stack MERN e-commerce website for a local embroidery business to showcase and sell handcrafted products online.
- Designed a product catalog with full CRUD functionality (MongoDB + Express/Node REST APIs) and an admin panel for the client to add, edit, and manage product listings independently.
- Developed a responsive React front-end for browsing products, with a click-to-WhatsApp ordering flow using pre-filled messages to streamline order collection for a non-technical client.
- Delivered an end-to-end production deployment, handling real customer traffic and orders for the client's small business.

INTERNSHIP EXPERIENCE

Data Science Intern | *Cognifyz IT Solutions* Jun 2026

- Cleaned and analysed real-world datasets; performed EDA to uncover trends and deliver actionable business insights.
- Built visualisations using Matplotlib and Seaborn; supported feature engineering for ML pipelines.

Industrial Trainee – Data & Systems Analysis | *DRDL, DRDO, Hyderabad* Jan 2024 – Jul 2024

- Analysed defence sensor datasets; generated structured reports that improved decision-making accuracy.
- Gained hands-on exposure to ETL pipelines, industrial data standards, and compliance reporting via REST-based systems.

EDUCATION

B.Tech – Computer Science (Data Science) | *Malla Reddy College of Engineering* | *CGPA: 7.5* Expected Aug 2027

Diploma – Electronics & Communications Engineering | *TKR College of Engineering* | *CGPA: 7.7* Jul 2024

SSC – Secondary School Certificate | *Sri Sai Grammar High School* | *CGPA: 10* 2021

CERTIFICATIONS

- Cognifyz IT Solutions – Internship Completion Certificate • OpenAI Generative Pre-trained Models for Developers • Prompt Engineering (Infosys Springboard) • Industrial Training Certificate – DRDL, DRDO
